

## Version History

CR#	Description
<b>Version 13.3.75 (SharePoint 2010/2013/2016), Sep-27-2018</b>	
5807	Fixed: IE browser print does not handle large amount of text in field grouping well
5808	Fixed: SP2010: When showing a field dynamically using field permissions, the form will jump to the newly shown field in such a way that the title of the field is at the very bottom of the page
5811	Improved: include time in data conditions
5812	Improved: HTML element will prevent an accordion group from being hidden if all fields in it are hidden
5827	Improved: If accordion groups are set to be collapsed by default, iMUSH print will print the form with collapsed groups
5828	Improved: Enable Field constraints to validate the sum of 2 lookup field values
<b>Version 13.3.74 (SharePoint 2010/2013/2016), Aug-12-2018</b>	
5800	Fixed: Custom code in edit form stops working after KWizCom Forms is deployed.
<b>Version 13.3.73 (SharePoint 2010/2013/2016), Jul-20-2018</b>	
5750	Fixed: Item cannot be more than 256 characters error message when selecting check names in Field Grouping settings
5752	Fixed: HTML element will prevent a tab from being hidden if all fields in it are hidden
5760	Added: Change List Forms Extensions to be called KWizCom Forms throughout
5787	Improved: Prevent KWizCom Forms from running script in lists that do not have any settings related to KWizCom Forms.
<b>Version 13.3.70 (SharePoint 2010/2013/2016), May-10-2018</b>	
5669	Fixed: Client side rendering will cause a form to jump back to the top
5676	Added: Enable using field tokens in html field
5693	Added: Opening the date picker makes the form jump all the way up (fix this SharePoint bug)
5696	Fixed: The HTML field in the field grouping module will shorten URL's when pointed to a subsite
<b>Version 13.3.69 (SharePoint 2010/2013/2016), Mar-25-2018</b>	
4919	Improved: Add free text "field" to field grouping.

CR#	Description
5629	Added: Support multiple users/groups set as a default value in a person/group field.
5645	Fixed: If SLFE is deployed, multi line of text fields will not word wrap.
<b>Version 13.3.66 (SharePoint 2010/2013/2016), Feb-27-2018</b>	
5563	Fixed: Disabled multiline text fields will prevent attachments from being attached to a list item
5589	Fixed: Fields with similar internal names will interfere with KWForms field disable rules.
5597	Fixed: Field permission rules involving lookup fields show an error in the rules list.
5618	Fixed: Text field control is not rendered if field permission set to disabled and it is in the second tab.
5620	Added: Enable attaching multiple files in one-shot.
<b>Version 13.3.65 (SharePoint 2010/2013/2016), Dec-14-2017</b>	
5425	Fixed: KWizCom Forms rules involving date fields will keep the mm/dd/yy format regardless of regional setting.
5488	Fixed: Disabling a choice field will remove the data on edit.
<b>Version 13.3.63 (SharePoint 2010/2013/2016), Sep-18-2017</b>	
5262	Fixed: When editing the user details on a mysite, the top link bar will disappear if the SLFE framework feature is enabled
5278	Fixed: Dynamic default value doesn't work if external value returns empty value
5283	Fixed: Field grouping (tabs) doesn't render correctly in Safari
5313	Fixed: Field validation does not acknowledge content types properly
5353	Fixed: Field permissions don't work with conditions involving cascading lookup
5366	Improved: add support for default values to pull data from multi line fields
5370	Fixed: Having field groups causes browser printing of a list item with overpopulated multi line fields to spawn scrollbars
5383	Fixed: Accordion field groups sometimes do not print but spawn a scrollbar instead when browser printing
5386	Fixed: If product is expired the settings page shows error
5387	Added: Add themes to field groups (tabs)
5395	Fixed: Rich text fields disabled by the "Always recalculate this column" option in default values can still be typed into

CR#	Description
5401	Fixed: field permission conditions that use contains/does not contain with a lookup field do not work
5425	Fixed: KWizCom Forms rules involving date fields will keep the mm/dd/yy format regardless of regional setting
5448	Fixed: Width does not show correctly if you use accordion and have 1 column in the group
<b>Version 13.3.56 (SharePoint 2010/2013/2016), Mar-14-2017</b>	
5100A	Added: Sync with Custom Actions new version
<b>Version 13.3.55 (SharePoint 2010/2013/2016), Feb-15-2017</b>	
5210	Fixed: Cannot override a hide field rule from list view using a second rule to show the field to a group
<b>Version 13.3.54 (SharePoint 2010/2013/2016), Feb-09-2017</b>	
5200A	Added: Sync with Custom Actions and KWizCom Mobile new version
<b>Version 13.3.51 (SharePoint 2010/2013/2016), Jan-05-2017</b>	
5100A	Fixed: Sync with Custom Actions new version
<b>Version 13.3.50 (SharePoint 2010/2013/2016), Nov-25-2016</b>	
5110	Fixed: KWizCom Forms causes document libraries to disappear if a file is uploaded to it
5125	Added: Add calculation external values
<b>Version 13.3.48 (SharePoint 2010/2013/2016), Nov-04-2016</b>	
5034	Improved: Add support for calculated fields in field grouping tabs
5062	Fixed: Personal views can override field permissions in list view
5065	Improved: Support column permissions by user in list views
<b>Version 13.3.42 (SharePoint 2010/2013/2016), Aug-03-2016</b>	
5021	Fixed: Form shows up before layout is complete
<b>Version 13.3.41 (SharePoint 2010/2013/2016), Jul-19-2016</b>	
4982	Fixed: Having SLFE activated on an environment causes the grant permissions dialog window to have a vertical scrollbar
<b>Version 13.3.38 (SharePoint 2010/2013/2016), Jul-06-2016</b>	
5000A	Improved: Sync version with KWizCom Mobile
<b>Version 13.3.34 (SharePoint 2010/2013/2016), Jun-01-2016</b>	

CR#	Description
4793	Improved: Support attachments in field permission rules
4820	Fixed: Accordion/tabs scrollbars in Chrome
4923	Fixed: Blurry R/O fields
4957	Fixed: Inner scrollbars in Chrome
<b>Version 13.3.32 (SharePoint 2010/2013/2016), May-17-2016</b>	
4926	Fixed: Forms edited in SP designer do not utilize the full length of a dialog window.
4943	Fixed: Default Value - date fields will always show time when using tokens.
4948	Fixed: Hiding a field on a long form causes the vertical scrollbar to disappear.
4967	Improved: Make field captions in view item form bold (SP2013/2016)
<b>Version 13.3.31 (SharePoint 2010/2013/2016), May-02-2016</b>
